

Neuro Wellness Spa Enhances Patient Care and Drives Positive ROI With CBS Health

ABOUT

NEURO WELLNESS SPA

Neuro Wellness Spa is a leader in providing repetitive transcranial magnetic stimulation (rTMS), photobiomodulation, IV ketamine, and IV nutritional therapy as treatments for individuals suffering from mental health issues such as depression, anxiety, PTSD, and cognitive impairment.

California

4 Locations

16 Clinical Staff

KEY CHALLENGES

- Obtaining reliable, objective assessments for patients' cognitive and "brain fog" complaints.
- Collecting objective measures of baseline cognitive performance and observing areas of improvement during treatment.
- Monitoring patients long term in a time and cost efficient manner.

SOLUTION

- Administration of CBS Health assessments before treatment to validate patients' cognitive symptoms.
- Objective assessment of cognitive impairment and of improvement over time during treatment programs.
- Remote assessments for easy, efficient, long-term cognitive monitoring.

KEY OUTCOMES

BETTER PATIENT CARE

Rich cognitive data improves corroboration of treatment efficacy and allows ongoing, accurate clinical monitoring.

TIME SAVED

CBS Health is fast, comprehensive, and completed by patients in their own home prior to appointments.

BUSINESS BENEFITS

Assessments are insurance reimbursed and ongoing assessments increase the numbers of patients who return for continued care.
